What you're building. QuizMe is a trivia game about baseball, but you can use it as a template to build quizzes on any topic. With QuizMe:. The user steps through a series of questions, clicking a button to proceed to the next question. The user enters an answer for each question and the app reports whether each answer is correct or not.

How do you ask "if" questions in App Inventor?

All variables in App Inventor are transient data-- they are stored on the phone and the data only "lives" through one run of an app. When the user closes the app, the data is lost. The MakeQuiz app needs to record the questions and answers in a database. This will allow the quiz creator (teacher) to always edit the latest update of the quiz. It will also allow the TakeQuiz app to load the quiz ...
